## SHOWS WOLTER HELD LICENSE

State Produces Certificate From Internal Revenue in Liquor Trial Today.

## BILLS OF LADING EVIDENCE

Prosecution Allowed to Bring Out All Three Raids in Hearing on Second Affidavit.

The case against Eddie Wolter growing out of the second raid on his home and pool room in West Third street was heard this afternoon by a jury in police court. Wolter is charged with the illegal possession of intoxicating liquor and the barrel of bottled beer found at his home was offered in evidence. The raid on which this case was based occurred March 6 and was the second of the three.

The state placed Chief Rosenkrance and Police Yakey on the stand first. They told of the raid and of finding the beer at his home. The other two raids were mentioned in their testimony, and the fact that whiskey was found in the pockets of a hunting coat in the pool room on the occasion of the first raid was brought out.

The defendant, through his attorney, John Joyce, objected seriously to the introduction of a large number of bills of lading as evidence by the state. The defense maintained the bills of lading had nothing to do with the case being tried and that if the state wanted to introduce the bill of lading on the single barrel of beer already in evidence they had no objection. The bills of lading covered a period of several weeks and showed Wolter had shipped many empty barrels to the Pabst Brewing company and had also received shipments. Mayor Bebout allowed the bills to go in as evidence.

Another damaging piece of evidence was the receipt held by Wolter in payment for a government license to sell liquor. The license was issued in July, 1914 and covered a period of one year. The state had a certificate from Peter J. Kruger, internal revenue officer from this district, showing the license had been issued.

W. B. Garrigus, freight agent for the C. H. & D. railway, was placed on the stand and questioned regarding the shipments made by Wolter as shown in the bills of lading. The case was expected to take most of the afternoon. Wolter maintained the beer found in his house was for home use and his wife was at the trial intending to testify in his behalf.

The jury trying the case was composed of the following men: Joseph Carson, H. C. Flint, M. C. Dawson, Samuel Anderson, Leonard Clark, F. J. Ewbank, Norman Crum, J. T. Russell, Hal Pike, D. C. Baell, G. P. Mauzy and J. W. Churchill.

## NEW LAW IS USED TO HELP FINANCE

County Treasurer Williams Receives Letter Today Calling for Advance Payment

## AS PROVIDED IN LATE ACT

Amount to be Taken From Rush County in Midst of Tax-Paying Time Near \$6,000

One of the new laws passed by the legislature is already being used to get money into the state treasury. The law is the one providing for advance payments of the county treasurer to the state board of finance. County Treasurer Williams received a letter this morning directing him to pay to the state all the money that the state has coming from Rush county on the state tax fund and the benevolent institutions fund by March 25.

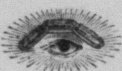

The decision of the state board of finance to call for all the money due the state from these two funds was made at a meeting yesterday. The law has not been in operation a month yet, but the state needs the money and this payment must be made regardless of the regular monthly settlement made by the county treasurers to the state treasurer.

It can not be definitely determined just how much Rush county will send under this call as the amount can not be figured up until after the close of business on March 25, but Deputy Treasurer Frazee estimated the amount would be about \$6,000. The call for this money will take about all the money the state has coming from the county as these two funds are the largest due the state. In Rush county the levy on the state fund is fifty-seven cents on the hundred dollars and the state benevolent institution fund calls for ten cents on the hundred dollars. As this call comes in the middle of the spring tax-paying time the amount is larger than usual.

The letter from the governor is as follows: "In pursuance of the provisions of an act of the general assembly of the state of Indiana approved February 19, 1915, providing for advance payments by county treasurers upon call by the state board of finance, and declaring an emergency, you are hereby notified that at a meeting of the state board of finance held this day (March 15) it was deemed advisable by said board that advancements on the state tax and benevolent institutions funds should be called for to be paid on March 25, 1915.

"You will, therefore, on March 25, remit to the treasurer of state, all money then in your hands belonging to the state tax and benevolent institutions fund in response to this call. This call is entirely apart from, and in addition to, the usual monthly payments made your county."

\* **AUTOMOBILES WANTED.** \*  
\* Automobiles are wanted Friday afternoon and Saturday morning, March 19 and 20 at the Graham school building for the use of the reception committee of the Sixth District Educational Association. Anyone willing to donate the use of autos to transport the visiting teachers from the depots to the Graham building, kindly report to H. B. Wilson and the courtesy will be appreciated. \*  
\* Anyone having furnished rooms for rent to visiting teachers will please notify Miss Belle Gregg, secretary of the reception committee. \*  
\*\*\*\*\*

Added interest was attached to the meeting of the Sixth District Educational Association here Friday evening and Saturday when it was announced today that Superintendent L. N. Hines of the Crawfordsville schools, author and promoter of the teachers pension law which was passed by the recent legislature, will address the meeting Saturday forenoon at 10:50 o'clock.

Being the originator of this legislation, Superintendent Hines, of course, is well acquainted with its provisions and benefits and will be able to discuss it intelligently. Teachers having questions concerning the law are invited to make their inquiries known. This is another feature of the meeting which is expected to make worth while the attendance of all the teachers in Rush county, as well as many from over the district.

Superintendent Scholl today gave out the following statement concerning the meeting addressed to "The Teachers of Rush County:

You are urged to attend the sessions of the Sixth District Educational Association which meets in Rushville, Friday night and Saturday forenoon and afternoon. The teachers of this county should show a welcome to the teachers of the other counties of this district by coming early and extending a welcome to all strangers.

The meeting in itself will be a very valuable one. The subject of handwriting is one that needs the attention of every teacher in the grades. Do you get results commensurate with the efforts that you are using to teach this subject? Or is the subject receiving the attention and thought that it deserves?

The Age Grade Census will reveal the number of repeaters in each grade of school. How much would the schools save in time and money if all the pupils were able to make their grades? Is there the necessity of requiring each pupil to attain to the same degree of proficiency? In what grade do you find the largest number of pupils of any given age?

Do you take a lively and directive interest in the future vocation of your pupils? Do you think that you can direct them along lines of search that will help them to choose wisely in reference to their future work?

All believe that Domestic Science is one of the best recent additions to our course of study? Do you wish to hear the statement of the

## ROBERT GLORE DISAPPEARED

Youth Whose Case Was Before Juvenile Court Missing When Time For Hearing Comes.

## CASE GOES FORWARD ANYWAY

Intimated if Foster Parents Had Anything to do With it, They Might be Punished.

Robert Glore, the adopted son of Mr. and Mrs. Howard Glore, failed to put in an appearance in juvenile court this morning at which time it was proposed to make him a ward of the court and place him in a suitable home. All efforts to find the boy failed and there is considerable mystery to his disappearance. Sheriff Cavitt and Attendance Officer Miller hunted the city over for the boy but could not find him. He was not at school, and according to his foster parents, did not come home last evening to supper and did not come home to spend the night.

Last week the boy seemed anxious to get away from Mr. and Mrs. Glore as he believed the environments at their home were not the best. It will be remembered that the boy wrote a letter to Dr. Leonard W. Snyder, of Philadelphia, known as the Boys' Minister, stating that his home life was very uncomfortable and that he would like to get away from those environments. The boy may not have known it at the time he wrote the letter, but his case was before the attention of the juvenile court and the probation officer six weeks prior to this time and was scheduled to come up in court just as soon as the officer could reach it.

The officers, in searching for Robert, learned that he was at a local picture show last night about ten o'clock and that while there he fell asleep. From the picture show all trace of the boy was lost and the police and other officers were unable to locate him today.

Judge Sparks went on with the hearing of the case and will wait until the boy shows up before making a finding. Witnesses were introduced to show the Glores were not fit persons to have the care of the boy. Judge Sparks intimated that if he found out that Mr. and Mrs. Glore were in any way responsible for the boy failing to come into court he would let them know they were dealing with a court. The juvenile court has almost unlimited powers and if Mr. and Mrs. Glore had anything to do with Robert's disappearance they can expect punishment at the hand of the court and the punishment will not be light if the court officials have their way, it is said.

It is reported that the boy's mother, Mrs. Rilla Morrison who lives near Delaware, Ind., has written attorneys here saying that she would like to have her son back, now that she is able to care for him.

The Emanon club will be entertained Thursday afternoon by Mrs. Derby Green at her home, 901 Main street.

James C. Dean and Samuel A. Webber, doing business under the firm name of the Dean-Webber company have filed suit on a note against Roy Carr, demanding \$100.

Elizabeth Adams has filed suit asking that a guardian be appointed for George Anderson. Mr. Anderson is a well known colored war veteran and it is alleged that he is not capable of attending to his business affairs.

## WILSON SILENT ON TOPIC TODAY

Refuses to Discuss England's Uncompromising Attitude Toward Foreign Trade.

## NO HASTY ACTION PLANNED

President Would Not Deny Strongest Note of Protest Would be Sent to Great Britain.

(By United Press.)

Washington, March 16.—President Wilson today refused to discuss any phase of Great Britain's uncompromising attitude toward foreign trade. He took the grounds that until he and his cabinet are in possession of all the facts they could not decide on their next step.

The president indicated there would be no hasty action but would not deny that the strongest note of protest would be made to Great Britain.

The president and his cabinet today planned America's next move. Two notes from the allies were under consideration. They were:

The British "order in council" decreeing the stoppage of all trade to and from Germany contraband or non-contraband even though destined for transit through neutral Italy, Holland or the Scandinavian countries.

England curt refusal to meet the suggestion in the "identical note" which Germany in part accepted asking a modification of the German submarine blockade in return for a removal of the embargo on food supplies for Germany's non-combatants.

An evidence of just what this new development means to American business men was Secretary Redfield's announcement that last week's foreign trade broke all records. The week trade balance in America's favor will reach \$40,000,000.

## ORDER RECEIVED TODAY

Text of British Blockade Transmitted to Washington.

(By United Press.)

Washington, March 16.—The state department today received from Ambassador Page in London the British "order in council" setting forth the allies program for enforcing their blockade against German ports. It was about 1,800 words and it was understood Monday's press version of it represented it correctly.

## DYNAMITERS TO PLEAD.

Los Angeles, March 16.—Matthew Schmidt and David Caplan, accused of participation in the Los Angeles Times dynamiting plot, were to be arraigned in the Superior Court today to plead in the charge of murder against them. Schmidt was arraigned in a New York and Chaplan on the coast, by Burns detectives, who had been tailing them since the McNamara plot first became known.

## KEEP HERDS OFF STREET.

Texas City, Texas, March 16.—Taking a stand for cleanliness and sanitary measures the women of this city outvoted the men in a special election on the question of permitting livestock to traverse the streets. The vote was 913 to 663 in favor of keeping the herds off the streets.

## TRIES TO INJECT POLITICS IN CASE

Congressman A. O. Stanley's Efforts in Election Corruption Hearing Squelched by Court.

## TWO TRIALS ARE FAILURES

Even Dead as Well as Vacant Lots Were Registered as Legal Voters, Witness Testifies.

(By United Press.)

Indianapolis, Ind., March 16.—An attempt of Congressman A. O. Stanley, who is Mayor Donn M. Roberts' chief counsel in the government Terre Haute election probe, to inject politics into the case today resulted in a sharp rebuke from Judge Anderson. Stanley tried to connect a government witness to the Republican party.

"I object to the question as this is not a political case in any sense of the word," said District Attorney Dailey. "What difference does it make whether a man is a Republican, Democrat or Progressive if he is corrupt?"

"I differ," said Stanley. "I think politics has something to do with it."

"Politics has nothing to do with this case. Any attempt to inject politics into it will be stopped immediately," said Judge Anderson.

Stanley started to speak but was interrupted by the court.

"I do not want to hear anything more of politics in this case, do you understand?" he said.

When the government introduced the original restraining order of Superior Judge John E. Cox to prevent Roberts' men from interfering with election boards, there was another scene.

"The government will prove that Mayor Roberts told his henchmen not to pay any attention to Judge Cox's restraining order," said Dailey.

"Where is this taking place, in Indiana?" asked the court.

"No in Terre Haute," said Dailey. "I never heard anything like it in my life," said Judge Anderson.

Even the dead as well as vacant lots were registered as legal voters and were voted at the recent Terre Haute election by the alleged conspirators, according to the testimony today of Silas M. Brewer, piano man of Terre Haute, who said he made a personal canvass of all

## Get What You Ask For

The national advertiser is always anxious to prevent substitution. He wants people to "get what they ask for."

But does the manufacturer always insist on getting "what he asks for" when he buys his advertising?

The daily newspaper is the one medium that does just this—gives the definite returns expected.

The local newspaper gives you what you pay for, and you don't have to pay for something you don't want.

The localized, definite, specific, pointed, direct appeal to a particular group of people, all of certain well-defined tastes and characteristics, is what the newspaper has to offer.

When you use the newspaper advertising you get exactly what you ask for.

# ALEX CONOVER SUCCEUMBS

Former Resident of Rushville Dies Near Custer, S. D.

Word has been received here by Robert Conover, 1021 North Maple street, of the death of his brother, Alex Conover, age 37 years, who left here about nine years ago, at his home twelve miles from Custer, S. D. He underwent an operation for cancer of the bowels at a sanatorium at Hot Springs, S. D., but it was ineffectual in stopping the ravages of the disease. He was living with his parents, who left here about the time he did. George Conover, a brother, of Indianapolis, went to the funeral. Besides Robert and George, he is survived by his parents, one other brother, Lawrence, who lived at home, and two sisters, Mrs. Gertrude Todd of Custer, and Mrs. Will Robinson of Cripple Creek, Colo. Mrs. Robinson is seriously ill with typhoid fever.

# GRAIN DECLINES A LITTLE

Wheat Options Range About One Cent Today.

Chicago, March 16.—The price of grain declined somewhat today. May options on wheat closed at \$1.57 5/8, a loss of even one cent and July options revealed a loss of 7/8 of a cent, closing at \$1.53 5/8. September options suffered the same loss, closing at \$1.10. May corn was also off 7/8 of one cent, closing at 74 5/8 cents per bushel and July corn options closed at 76 7/8 cents, a loss of three-fourths of a cent. May oats closed at 55½ cents, losing one-half cent, and July at 54 5/8, a loss of 5/8 of one cent.

## TODAY'S ODDEST STORY

(By United Press.)

Minneapolis, Minn., Mar 16.—A group stood at a prominent street corner. A street car running from here to St. Paul rolled up. The crowd boarded—all but one man. A few moments later another crowd had gathered. They all got on a car bound for St. Paul—all but the one little man. Thrice the same thing happened. It attracted the attention of a passer by, who inquired the reason. "I'm waiting for a Minneapolis—St. Paul car," he said. "I simply will not ride on one marked 'St. Paul and Minneapolis.' They have no right to put St. Paul ahead of Minneapolis."

## TRIES TO INJECT POLITICS IN CASE

Continued from Page 1.

voters precinct A of the Fourth ward.

"O. N. Hamilton of 707 North Eleventh street who bore the number 41 had been dead a year and even the house where he lived had been moved away when he 'voted' election day," said Brewer.

When some of the defendants in the government probe of the local political situation in Terre Haute failed to appear today, Federal Judge Anderson declared from the bench that he would forfeit the bonds of any of the 28 defendants if they failed to appear in court without having made an adequate excuse beforehand.

Joe Straus, whiskey salesman, a defendant, failed to respond when his name was called. Some of the other defendants said he was ill. Others were absent.

With the appearance of many Terre Haute gamblers in the witness rooms in the federal building today, it was thought the government is preparing to prove its charge that Terre Haute gamblers "chipped in" for a slug fund in return for police protection. Among the known gamblers were: Jimmy Shea, Bert Shea, Mike Sweeney, Walter Roach, Pop Burns, who ran a big keno game in the west end, and Charley Murphey.

A well founded rumor today was that the defense would debate largely on alibi witnesses.

### Amusements

## ASKS DIVORCE FROM HER FIRST HUSBAND

Mrs. Harriet N. Waincott, Who Thought She Had Been Divorced, Now Requests Decree.

### SHE WAS MRS. JAMES NADEN

Mrs. Harriet N. Waincott has filed suit for divorce from John R. Waincott. It will be recalled that Mrs. Waincott married James Naden here believing that her first husband had obtained a divorce. Later Naden had his marriage annulled on the grounds that Mrs. Waincott had not first obtained a divorce from Waincott. The annulment proceedings were brought after she had filed suit for divorce from Naden.

The papers were taken from the file at the clerk's office as soon as they were filed. They formerly lived in Kentucky. Mrs. Naden stated that her intentions were good when she married Naden as she fully believed that her first husband had obtained a divorce. She received notice of the filing of the divorce suit and the date set for the trial and presumed the divorce had been granted on her failure to appear. She says her first husband was married here. Mrs. Naden first filed suit for divorce from her first husband, she says, but he persuaded her to withdraw it.

## CASEY LIQUOR CASE SET FOR THURSDAY

One in Which he Was Fined \$350 and Sentence to Jail For 6 Months to be Tried.

### ANOTHER ONE IS PENDING

The case against Newton Casey, charged with the illegal possession of intoxicating liquor, will be tried Thursday in the circuit court, according to present plans. This is the case against him that was taken to the circuit court on an appeal from Mayor Bebout's court. In the mayor's court Casey was found guilty by the jury and fined \$350 and given six months in jail. The case has been set down for trial by Judge Sparks. The other case pending in the circuit court against Casey is set for trial next Monday. This is the case that will prove serious for Casey if he is found guilty.

Judge Sparks this forenoon found for the plaintiff in the partition suit of Oliver Malcom against Edith G. Gosnell, et al., and ordered the land sold. Donald L. Smith was appointed the commissioner to make the sale and gave bond in the sum of \$16,000.

## VISITING NURSE TO SPEAK

Parent-Teachers Association of High School Meets Tonight.

The parent-teachers association of the high school will meet again tonight at the high school building. This meeting is open to the public and the teachers of the grades. Miss Mary Moore, Rushville's visiting nurse, will speak at the meeting tonight. The subject of a visiting nurse and her work are not generally understood and Miss Moore will explain her work, telling of the good she has done while here and pointing out conditions as she finds them. The meeting will start at seven-thirty o'clock.

An automobile driven by Miss Dorothy Frazee, daughter of Mr. and Mrs. Austin Frazee, 311 East Sixth street, crashed into a buggy in which Russel Manor, Rushville rural route No. 12, last evening about six o'clock at the intersection of Second and Perkins streets.

Miss Frazee was driving south in Perkins street and had the right-of-way, but it seems that Mr. Manor attempted to drive across in front of the machine. The hood of the automobile hit the right back wheel and shoved the buggy over against the curb. The left front wheel and the right back wheel were mashed down.

**School Problems**

There has been some criticism of the teachers pension law, but it seems certain that unbiased minds will see the worth of it once they give it some study. If there is any class of people in semi-public life that needs a pension, it is the school teacher. And again, it is not likely to work any hardship on the state because the pension system is not compulsory and its benefits go only to those who take advantage of the provisions of the law.

One hears some criticism of modern school methods but many parents criticize without having made any personal observance of the schools. The general public does not seem to comprehend the strain of school work. The parent can barely maintain stable government through the vacation, yet it is felt by them that the teacher can easily subjugate the forty or fifty children that are unloaded on him or her. The parent does not realize how much diplomacy and enthusiasm it requires to organize these little anarchists into a working body. The average compensation for the teacher is generally agreed to be too small.

The average teacher has to handle too many children. In a crowded room, discipline alone is a big proposition. Then in a five hour session there is only about seven minutes per pupil for instruction. The public school child gets his education largely by hearing the others recite. But the others may not ask the questions that bother your boy.

Better work is done in some private schools, but not because people with more money can buy brains for their children. A petted child is a little loafer. The private school teacher has fewer children to look after, consequently she can lead them as individuals, does not have to drive them as a herd.

Tax payers everywhere say the schools have reached the limit of expense. More teachers could not be afforded. Yet somehow many towns afford buff brick and stone buildings, where once wood was pointed at with pride as an ornament.

Mexico is shy on food—ditto brains.

**LIFE INSURANCE COMPANIES**

They Are Closely Observing Public Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Binghamton, N. Y., who prepare Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases.

Swamp-Root is purely an herbal compound and Dr. Kilmer & Co., advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Daily Republican.

**Backward Progress.**  
(Muncie Press.)

At a time when taxation in Indiana and throughout the country is rapidly approaching the point of confiscation and when the high cost of living reflects the burdens heaped upon productive industry by the ever increasing demands of the tax-gatherer, the Indiana legislature, in the name of progress, has presented the people of the state with a compulsory general primary law which in Delaware county, for instance will saddle upon the people an additional expense equivalent to that now incurred in holding a general election, —this for no real public purpose, but to finance the activities of political parties in creating their organizations and nominating candidates for office.

Indiana might well have awaited further experimentation with the general direct primary in some other states before adopting the expensive innovation. Demonstrably its effect has been in neighboring states to increase political corruption, render easier the manipulation of politics by machine workers to prevent any but professional politicians from offering themselves as applicants for places in party organizations or on party tickets and to lower the level of public service. Party responsibility party desire to put the best foot forward at an election which is so large a factor in the representative system of making nominations and often a salutary one, is succeeded by chaos, so such an extent that at the last primaries in Chicago the principal papers of the city declined to take the responsibility for making any recommendations. The Chicago experience proves, too, that in such a primary only a minority participates, and usually a small minority of this minority in each party nominates. This indifference demonstrates that the people are not clamoring for an opportunity to go through more than one process of direct election in each campaign, and the results of that indifference and the chaos it creates tend to discredit rather than to heighten the standards of popular government.

In many Indiana counties where direct primaries have been in effect heretofore, they have been abandoned in some cases because of the corrupt conditions they have created. In Indianapolis and Terre Haute the

## Acts of Recent Legislature Are Explained by Expert, John A. Lapp

(This is the second of a series of articles prepared for the United Press by John A. Lapp, director of the Bureau of Legislative Information, explaining the new state laws. Editor.)

The most talked of piece of legislation enacted at the session of the General Assembly just closed was the Jones Primary election bill. It is of great interest to the people of the state because it means almost a complete change in the system of nominating candidates for public office. Hereafter, the voters of each party vote directly for candidates for the nomination for all offices except state officers. In addition, the voters vote directly for candidates for president, vice-president, governor and U. S. Senator in an advisory way.

Concretely, the law will work this way. On the first Tuesday after the first Monday in March, 1915. The Republican, Democratic and Progressive parties must make their nominations by direct vote at an election which is held under the same conditions and with like officials and regulations as now govern general elections. At that election the voters will vote for candidates for members of congress, state and prosecuting attorneys, and for governor, United States senator and President and Vice-President. The person receiving the greatest number of votes will be declared the nominee of his party. In the case of the governor, United States senator president and vice-president, candidates must receive a majority of the votes cast in order to be declared the nominee. Otherwise, the matter is taken to the state convention for final selection.

In voting for candidates, each elector may vote for his first choice and for his second choice, and if no candidate has received a majority of the first choice votes, the lowest candidate is dropped and the second choice votes of his supporters are distributed among the others, then if no one receives a majority, the next lowest candidate is dropped and his second choice votes are distributed until one of the candidates has majority of all votes cast. With this method it is evident that the vote for governor, United States senator and president will inevitably result in a majority for one candidate. Hence, the idea that the vote for these officers is simply advisory is erroneous.

The members of the party committees are chosen at the same election and serve for the next two years. This is a complete innovation, for corruption of the primaries has attained a national reputation, and not entirely, as is pretended, because of the deficiencies of the system, which is not essentially different from that provided by the new primary law. The new compulsory primary law provides a maze of technicalities, filing of petitions, paying of assessments and the like, which will promote professionalism in politics to an extent hitherto undreamed of in this state.

An instance of what the adoption of this system means in the exclusion from politics of the man who has no wad of his own and is unwilling to run for office as the representative of some special interest, is found in the provision relative to the preferential expression on the presidency. It provides that for a fee of \$750 a presidential candidate may have his name placed on the Indiana ballot. At this rate it would cost a presidential candidate \$35,000 to even qualify for consideration at the hands of his party nationally by getting his name on the ballot in each state. How fortunate that Abraham Lincoln lived before the days of "progress." In this primary law the salary of each office is made the basis of one per cent assessments to be paid the state in partial indemnity for providing the primary; evidently the primary proponents consider the emoluments of office the sole object of political ambition. Certainly the law they have enacted will represent considerable progress toward the further commercialization of politics.

Evils there were in the convention system. It is the misfortune of existing institutions that their evils are tangible, while the evils that lurk in

Committees Collecting For Baseball  
Stock Meet With Success But  
Will Keep After Money.

INCORPORATE NEXT THING

Richmond Club Will Decide Wednesday Night on Question of  
Entering Sunday League.

The committees at work collecting the money for the baseball stock had a profitable first day getting almost \$500. A meeting was held last night and the committees reported on the day's work. It was not expected that they would be able to work today but on Wednesday a whirlwind canvass will be made and it is hoped to have enough of the money collected by Thursday to go ahead with the incorporation.

The subscribers of stock who have not paid are asked to remember that the office of the treasurer, H. G. Hackman is always open and it is not necessary to see the committees. Several new subscribers were secured yesterday while the committees were at work. With half of the money practically in, the proposition is sure to go through. It takes money to operate a ball club and the more stockholders the better.

The talk of the Sunday league will not die down and the fans here are sure strong for the league. The Richmond club has not yet decided whether their team will be entered or not. The following from the Richmond Item will be of interest here:

Richmond baseball club meeting scheduled for tonight has been postponed until Wednesday night. The meeting was called for the purpose of discussing the proposed Sunday league and for taking action on this proposition, definitely deciding whether Richmond wants to enter the league or to stay out as an independent organization. The directors of the Richmond club are not settled in their own minds what they wish to do and it is impossible to predict what action may be taken. At least two of the directors of the

club are known to favor the league proposition if Richmond can get what it wants.

Richmond if it goes into the league will demand the secretary and treasurer of the league and will make some other demands. Richmond is in a position to make these demands for it is the keystone of the entire proposition. If Richmond stays out it is a cinch that Rushville and Connersville will remain out. Newcastle probably would not consider the proposition either if Richmond were out. Billy Vogel of Indianapolis who is one of the men eager to see the league promoted for the benefit of his ball club would rather see Muncie in than Richmond. Therefore, if Richmond does enter the league a demand will be made that Cambridge City be placed in the league and that Vogel and Indianapolis be left out.

**POLICEMAN RECOVERING.**

The Richmond newspapers say Patrolman John Cully, Richmond policeman who was shot last Monday night by Nathan Hilling, who killed his wife and then himself, is improving slowly. Hilling and his wife formerly lived here. Testimony of relatives of Hilling as to the motive for his crime substantiates the newspaper reports that he was jealous of her.

Minneapolis Team Gets Rid of Old  
Timers and Young Blood is Being Added Around Circuit

**BREWERS EXPECT TO REPEAT**

Indianapolis Team Training on  
Coast Look Good, McGill Says  
He Will Have Real Team

BY TIM SULLIVAN

(Written for United Press.)

St. Paul, Minn., Mar. 16.—With the baseball season, approaching, the St. Paul club of the American association is as still as a graveyard. Narry a whisper is heard about the prospects of the club and there seems very little interest in whether there is a club. Mike Kelly, manager of the club, has organized it and promises to bring up the financial condition.

Over in Minneapolis there will be much young blood in the team. The veterans who won four pennants and made a strong bid, but finally slipped in 1914, are about all gone. Lee Tannhill has been released to Los Angeles, and Joe Lake has been released outright. These marked the last of the old timers.

Pitchers are wanted by Kansas City. Armour has threatened to take some of the young blood under his wing on the training jaunt. Brief and Roth have been lost. Since last fall, "Lefty" George and Ralph Works have been added to the staff. Jack Lelivelt of Cleveland has also been added. However Reagan is the only twirler on the staff upon whom the fans bank. Armour has two pitchers coming from the White Sox on the Roth deal, however.

Out in San Diego, Cal., the Indianapolis Indians are making what is being looked forward to with hope. Pres. McGill says that facing the strong competitions of the Indianapolis Feds, that he will be put up against a proposition of putting up a flashy team, or getting behind some \$40,000. Reilly, Crandall, Brockie, Metz, Blackburn, Willis, Merz, Schardt and Burke are about the only ones that look absolutely sure to reappear from last year's team. Bucher of Denver probably will be in uniform. He plays the gardens.

With Shortstop Jack Knight hav-

ing supplanted Jimmey Sheekard as manager, and showing lots of managerial pepper, the Cleveland fans believe that the Cleveland bunch will go at a faster clip than ever before. Kirk Knight, Pezoid, and Bassler will be in the line. James, Kahler, Haggerty, Dillinger, Osborne, Brown Brenton, Hoffer and Carter will be tried on the mound.

Securing a good baseman to replace McLarry is worrying the management of the Louisville club. Burns, Burch, Buemiller and Ingerton have been given their liberty. Derrick, Stansburg, Platte and Osborne came back.

Little change will be made in the twice pennanted team from Milwaukee, where the signs "English spoken here" adorn the front of shop windows although there may be a slight shift in the outfield, caused by the vacancy of Welsh. Slapnicka, Hove-Daugherty, and Miller are promised for the mound, while Hauges Slight and Mallory will make the other end of the Brewers batteries.

There's a dubious shade about the Senators, over in Columbus. Many stars have twinkled out. Hinchman and Spooks Gerber go to Pittsburgh. Syd Smith will be given his chance with the Pirates. Even Bailey has a bum leg and the fans are not betting on him, the last hope.

## FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

## MANY HERE SEE "JOKER" IN LAW

They Declare One Provision of Direct Primary Statute is Not Constitutional.

THAT PERTAINING TO OATH

Pointed Out it Would Prevent Returning Progressives Helping Name G. O. P. Ticket.

Many men here who have been studying the new state-wide, direct primary law are a little prone to believe that some provisions of it are unconstitutional and that a test of them in the courts will prove it.

They contend that the clause which provides that every voter who helps nominate any given party ticket shall make oath that he supported half of that ticket at the last election is not right in that the ballot is supposed to be secret. If a voter has to make public property what ticket he voted in order to take advantage of the primary law, the ballot no longer secret, they hold.

Some Republicans have an idea that the senate fixed up the compromise in order to eliminate to some extent the return of many Progressives to the Republican party by making it impossible for them to help nominate the Republican ticket, and to make it hard for the so-called Democratic "Forward-lookers" who many regular Democrats assert in "D. R. E. L. G. A. C."

It is pointed out that the senate was opposed to the primary plan because it refused to pass the Rinear bill, a duplicate of the Jones bill which was introduced in the house and which did not contain the provision calling for all those who participated in the primary to make oath that they supported half the ticket of the party, whose candidates they seek to help nominate in the primary.

It is said by some men here who have been reading up on the primary question that no other primary law in the United States contains such a provision. Because the senate apparently was opposed to primary legislation and had to be coaxed into a compromise, it is believed by many that this "joker" was put in to nullify the law.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## TARGET PLANS KEPT SECRET

Uncle Sam Playing Foxy and Does Away With Publicity Regarding Practice of Gunners

PRESENT WAR IS ONE CAUSE

Records Are Not Now Paraded Before Other Nations With a Chance of Comparison

(By United Press.)  
Washington, March 16.—Uncle Sammy's playing foxy. At least, he's that way when it comes to letting the world know just how good his bright young men are on their navy target practices. And there's a reason.

It used to be the custom for the United States navy to parade its target records. Then when the aforesaid Uncle Sammy had done with this advertising, the other nations stepped proudly forth, and let the United States know where they, too, stood, on his land misses.

But war changed a lot of things—and among others the matter of advertising just how fast and how far and how well American gunners can shoot. Hence, today records of the past and present, and comparison with other nations, is withheld for the most part.

Hence, when a few weeks since, gentle reader, you read that William Ruf, gunpointer aboard the Texas, had smashed a world's record to smithereens by making eight hits with a fourteen inch gun, firing at a moving target twelve miles away, you didn't have the exact facts. Neither, did you have exact information when you saw in the movies another young man aboard the Georgia portrayed as Uncle Sammy's "champeen."

Ruf did break into the limelight, but this marks—whatever they may be—were made with a small gun.

And when the crew of the San Diego made 100 percent of hits on a range near the Colorado Islands, with an eight inch gun, firing at a rate of three and a half shots a minute, that was not all, either.

On the other hand, the real dyed-in-the-wool gunners, for the past year, when it comes to hitting the bulls eye with a 14-inch cannon, is L. V. Lindsey of the Texas, an ordinary seaman.

Manipulating one of these 14-inch pets and ringing the bell frequently is a real feat, so Lindsey gets special recognition for his work.

The leading 12-inch gunners are W. F. Meyers, seaman, on the Arkansas, and E. L. Talley, coxswain of the Georgia.

Back in the days when Uncle Sam used to do a bit of advertising about his gunners ability—say around 1896—a shot every three minutes from the turret guns—11, 12, 14 inch—was considered satisfactory, while one a minute from a six inch gun was also looked upon as a paper figure.

And if the hits averaged three and a half percent, as in the battle of Santiago, the navy felt well content. The hitting in that battle, however,

was chiefly with small guns at a range less than two miles.

But in these days of "Big Berthas" and the like, shooting and hitting in the U. S. navy is far higher than it used to be.

Now two shots a minute from the big turret guns and about eight from the smaller guns is considered a fair record. The hits, however, run higher.

The big fourteen inch guns which can create a lot of wreckage up to 14 miles, score about 25 percent on hits—at least that was the record when last figures were made public in 1911 in connection with firing at the old San Marcos target in Chesapeake Bay.

Incidentally, Secretary of Navy Daniels had this to say on the general subject of target practice, a few days since:

"Some people complain that our navy hasn't had enough target practice recently. But I want to say that the practice we had in going to Vera Cruz was more valuable than the target training could be. We picked up and got down there in double quick time—and everything ran like clock-work. That training was invaluable."

## Rheumatic Victims

Johnson's Drug Store No-Cure No-Pay Offer Attracts Many Sufferers to Test Rheuma.

If Rheuma, the wonderful prescription for rheumatism sold by Johnson's Drug Store and all druggists, does not cure any purchaser, the druggist will return your money without any red tape.

Rheumatism is a dangerous disease; because of its shifting nature it often strikes the heart and proves fatal. Any one with even a taint of rheumatism ought to drive it out as soon as possible.

Rheumatism is caused by sluggish worn-out or overworked kidneys, which become clogged and fail to eliminate the impurities from the system.

Rheuma acts promptly and directly upon the kidneys; it cleanses them; it absolutely renovates and leaves them in perfect condition, able to do the work nature intended they should do. 50 cents a bottle. (Advertisement.)

## SPECULATE ON BELL'S POWER

Defeat of His Pet Measures in Legislature Believed to Show he Has Lost Out

ALL OF HIS BILLS KILLED

Finance Board Bill Created Great Excitement and Change of Venue Bill Was Next

Indianapolis, March 16.—There was some speculation here today as to just what strength Mayor Joseph E. Bell of this city has with the Indiana Democratic party while friends said his position was unchanged—that he was still a leader whose counsel is valued—there were others who pointed to the record of the recent legislature showing that every bill in which Bell forces interested themselves was defeated.

Here is the record of defeats for bills either fathered by Mayor Bell or fostered by his organization:

Change of venue bill, known as "Felon's relief bill," passed the senate but amended and defeated in the house.

Bell finance board bill passed senate but defeated in house.

Bell park board bill, killed in the senate.

Sewage disposal bill, defeated in the house.

Bill to replace press services under the public service commission passed the senate and defeated in the house.

Bill creating second police court in Indianapolis, died in the senate.

Great excitement was created over the finance board bill, which would have given the mayor power to appoint the board and discharge the members. The board would have taken over many of the principal powers of the city council. Bell and the city council have been at loggerheads and Bell declared they willfully thwarted every move he desired to make.

The venue bill was next in importance. It was designed to allow changes of venue from Judge Collins of criminal court and finally was amended to apply to election cases. Since this bill failed there has been numerous rumors that Bell would be indicted by the Marion county grand jury.

### An Overburdened Wife.

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with backache, pains in side, headaches and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

## MOST POWERFUL SHIP LAUNCHED

U. S. Dreadnaught Pennsylvania, Which Slipped From Ways Today, Has That Distinction

CEREMONIES CONDUCTED

Uncle Sam's 38th Battleship is Christened by Miss Elizabeth Kolb of Germantown

(By United Press.)

Newport News, Va., Mar. 16.—Sponsored by Miss Elizabeth Kolb of Germantown, Pa., the giant U. S. dreadnaught Pennsylvania slipped from the ways today and took her place as the most powerful fighting machine yet launched.

In the presence of Secretary of Navy Daniels, and other officials, solemn ceremonies were conducted. While sailors and marines stood at attention, and as big salute guns boomed forth, Miss Kolb dashed a bottle of champagne over the bow and christened Uncle Sam's 38th battleship the Pennsylvania.

As the enormous fighting machine plunged into the ocean, she presented a strange contrast to the Delaware launched in the same yards—the Newport News Shipbuilding company's yards in 1909.

Where the Delaware had a displacement of 20,000 tons, the giant Pennsylvania had 31,400. Mammoth black guns, bristling from her sides were 14 inch type—twelve in number—against the Delaware's ten 12-inch guns.

In addition to her larger guns, the Pennsylvania carries four submerged torpedo tubes through which she can shoot underwater at an enemy; and 22 5-inch 51 caliber rapid fire guns, four three pounder saluting guns, two one pounder, for boats, two three inch field pieces and two 30 caliber machine guns.

She will carry 65 officers, a crew of 863, and a marine detachment of 74.

Thirteen million dollars was the cost to Uncle Sam of this latest addition to the navy and she is far and away better than anything the navy has ever asked before. From top to bottom her equipment is strictly modern. Oil burning Curtiss turbines instead of coal engines will propel her, and she is fitted to carry 694, 839 gallons of fuel.

Other figures showing what a giant she is follows: length over all 880 feet breadth, 97½ feet; speed 21 knots. The keel was laid down in February, 1913.

The Pennsylvania, in some respects will be the most powerful vessel afloat. While not as speedy as the greatest British warship, the "Queen Elizabeth," which hurled its projectiles with deadly effect in the Dardanelles bombardment the Pennsylvania's weight of broadside is 3,000 pounds heavier than the British rival, and her projective armor is three inches thicker.

A comparison of the two ships, each illustrating different ideas in naval construction follows:

Pennsylvania—Displacement, 31,400 tons; big guns—12 fourteen inch; armor amidships 16 inches; speed 21 knots, weight of broadside, 16,292 pounds.

Queen Elizabeth—Displacement 27,500 tons; big guns, 8 15 inch; armor amidships, 13 inches; speed, 24 knots; weight of broadside, 13,400 pounds.

Dreadnaught No. 39 has not been christened, is a sister ship of the Pennsylvania. American naval experts declare that while ships of the Queen Elizabeth type might outrange the Pennsylvania the latter's protective armor is so heavy that the projective would not do any appreciable damage.

## ST. PATRICK'S DAY TO BE CELEBRATED

Natal Day of Ireland's Patron Saint Will be Duly Observed Here Tomorrow

PLAY TO BE GIVEN AT NIGHT

The natal day of Ireland's patron saint will be duly celebrated in Rushville by the sons and daughters of the little Green Isle. High mass will be celebrated at St. Mary's Mary's church at 8 a. m. and the familiar Irish airs will be heard.

In the evening at St. Mary's hall a drama in three acts entitled, "Shaun Aroon," will be presented by the dramatic club of the parish. These young people have been rehearsing the play with much enthusiasm and a clever performance may be expected. The cast of characters follows:

"Shaun Aroon," Thomas Cauley; "Lord Fermoy," F. T. Loftus; "Fergus Daly," George L. Todd; "Dan O'Grady," John Geraghty; "Tom O'Grady," Ed O'Neal; "Old Hennings," James Mullins; "Nipper," John Conroy; "Patrick," Michael McCoy; "Mrs. O'Grady," Miss Mayme Geraghty; "Mollie O'Grady," Miss Helen Reardon; "Maggie," Miss Marie Mack.

## A SURE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp—At Once

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

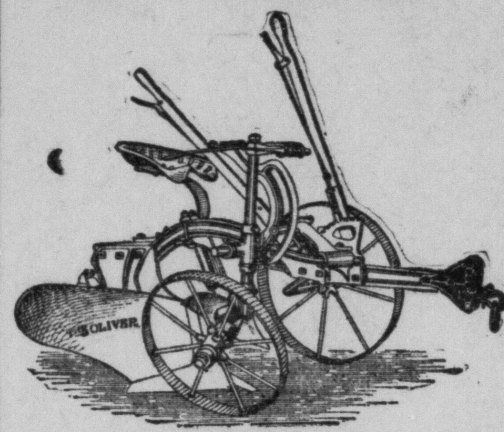

## We Have Our Spring Buggies In!

and they are ready for your inspection and we extend you an invitation to call and look them over this week as it will be to your interest to make your selection between now and the closing day of our Opening. We will explain why when you come in. We have the finest buggies ever placed on a sample floor and we want you to look them over. If you need a Storm Buggy this is the correct place to get what you want. We are not selling them at a reduction of \$25.00, however, but we are selling them just the same as we have all season at \$100.00. We have always said that our price was just as low at any time as the cut prices of our competitors, and we are always ready to do as we advertise. When a merchant advertises he has made a cut of \$25.00 on a buggy use a little common sense in forming an opinion about this like the fellow that was in a state of coma, and his friends thought he was dead, but before time to bury him he showed signs of life. When he rallied enough to talk his friends asked him how it seemed to be dead. "Dead," he exclaimed, "I knew all the time what was going on and I knew I wasn't dead, too, because my feet were cold and I was hungry and I knew that if I was in heaven I wouldn't be hungry and if I was in the other place my feet wouldn't be cold. Now if you will study out 99 per cent of the cut price argument you will see just about as much to them as there is in this little story. In other words, somebody has to be the goat, and the man that takes \$25.00 off of a buggy during a sale must have a lot on when he is selling regular. Buy your buggies where the price is always the same and as low as any cut price sale ever advertised in Rush County. Let the other fellow be the goat this time.

## \$3000.00 FIRE PREVENTED

The House the Red Jacket Saved

Read This Letter: "Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on 'fire protection' that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect. Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

# TWO CHARGED WITH BRIBERY

Mayor R. H. Bunch and Deputy  
Prosecutor Williams of Muncie  
Indicted by Grand Jury.

DECLARED MEN GOT \$1,700

Chief Executive Accused of Having  
Accepted 20 Per Cent From  
Agents of Slot Machines.

Muncie, Ind., March 16.—Following a grand jury investigation of several days Mayor Rollin H. Bunch and Deputy Prosecutor Gene Williams were arrested last evening on grand jury indictments, which charge them with accepting bribes. John Day, justice of the peace, was arrested on an indictment charging him with having failed to docket cases in which fines were levied by him in his court.

Mayor Bunch is charged in the true will with having accepted \$11,600 from Lloyd Yount of Portland, Ind., an agent for a slot machine concern, and Deputy Prosecutor Williams is charged with having accepted \$100 from Yount. All three men were released on bond.

The first results of the grand jury investigation under the direction of Special Prosecutor W. A. Thompson came in the three separate indictments against Mayor Bunch, Deputy Prosecuting Attorney Williams and Justice of the Peace Day. The offense charged to Day is a misdemeanor. Mayor Bunch and Deputy Prosecutor Williams each gave bond in the sum of \$2,000 and Justice Day put up a cash bond of \$100.

The indictment against Mayor Bunch is the most explicit of the three and is in three counts. The first count charges that on Jan. 15, 1914, Mayor Bunch accepted a bribe of \$100 from Yount to allow the latter to lease and sell his slot machines in Muncie. The second count charges that on Jan. 15, 1914, Yount and Mayor Bunch entered into an agreement regarding the operation of slot machines in Muncie, whereby Mayor Bunch was to receive 20 per cent of the net profits accruing from the use of the machines, and it is charged that at divers times thereafter Yount paid to Mayor Bunch his share of the profits, amounting in all to \$1,000.

In the third count it is charged that Yount paid Mayor Bunch \$500 as an "inducement" to prevent the prosecution of those persons operating the slot machines leased or sold to them by Yount.

The one indictment against Deputy Prosecutor Williams is similar to the first two counts against Mayor Bunch. It is charged that Williams accepted \$100 from Yount as a bribe for the purpose of influencing the action of Bunch in permitting the use of the slot machines in Muncie and in not prosecuting the proprietor of the stores in which the machines were placed.

Yount came to Muncie shortly after Mayor Bunch took office and almost immediately after his arrival in the city a number of slot machines appeared in the cigar stores and other places. They operated without molestation, it is said, until Yount got in trouble at Richmond, Ind., where he was accused of attempting to bribe the mayor of that city to permit the use of slot machines there.

The city authorities then ordered the machines out of all the stores here. A short time later, however, slot machines of another make made their appearance in a number of the stores and it is said that Yount then threatened to expose the whole thing unless he was permitted to install his machine again. Yount made five trips to the grand jury room.

# REPORT RATIFIED BY THE MEMBERS

Chamber of Commerce Accepts  
Recommendations of Committee  
For New Directors

MEETING TO ORGANIZE SOON

A meeting of the members of the Chamber of Commerce was held last night at the court house assembly room to take action on the report of the nominating committee appointed at the regular annual meeting to nominate eleven members to become members of the board of directors. The report of the nominating committee was adopted and the following members were declared elected for terms of two years:

Joseph Sterns, H. G. Hackman, Ben A. Cox, E. J. Knecht, S. L. Traub, F. E. Welcott, W. M. Bliss, P. H. McConnell, H. S. Havens, J. S. Tittsworth and W. O. Feudner.

A meeting of the board of directors will be called very soon for organization and to discuss reduction of dues. This question was considered last night and it was thought the proper way to proceed would be for the directors to recommend the dues be changed and submit the recommendation to the members for their ratification or rejection.

# THOUGHT TRAMP STARTED THE FIRE

Large Barn on John D. Stewart's  
Farm in Richland Township  
Burns Down

HAD INSURANCE OF \$1,250

A large barn of the John D. Stewart farm in Richland township was destroyed by fire last night about eight o'clock. The origin is unknown but the supposition is that a tramp sleeping in the mow set it on fire. The blaze when first discovered was confined to the hay mow and the fifteen tons of hay burned with a flash. Mr. Stewart had no fire protection and the work was directed towards saving the surrounding buildings.

There was no live stock in the barn, with the exception of a few head of hogs. The horses had all been turned out for the night. It is understood that Mr. Stewart had \$1,250 insurance on the barn and contents, but this will not cover the loss.

The Presbyterian ladies will serve a dairy lunch in the church basement Saturday, March 20th, beginning at eleven o'clock. Public invited.

# FIVE FIGHT BILLS IN LEGISLATURE

Illinois Solons Consider Many Pro-  
positions for Legalizing Glove  
Game in That State.

QUESTION OF DECISIONS

BY JAMES O'DEA  
(Written for United Press.)

Chicago, Mar. 16.—Every legislator has a fight bill all his own, might be an appropriate parody on the popular "Every Little Movement" Melody down in Springfield. There were five bills known to be ready for the legislative grist long before the Illinois solons in the lower house finally got together after a record breaking deadlock, elected a speaker and organized. All provided for legalizing the glove game in Illinois. All provided for a commission. Some were almost similar to the New York Law. Others want boxing in Illinois under conditions similar to the method of holding fights in Wisconsin. All call for a 10-round limit. When the sessions get going good, the five bills mentioned, are expected to be augmented by as many more.

The one point on which there is wide difference of opinion among the dozen or more legislators who are known openly to favor a boxing law in Illinois is the matter of whether there shall be decisions. Fight promoters and others interested in legalizing boxing in the state are expected to get together within the next few weeks and concentrate on one bill. Governor Dunne has steadfastly refused to state his position in the matter. It is believed however that if the house and senate put the bill through, the Illinois chief executive will sign it.

Mrs. Robert Gardner, who underwent an operation last week at the Sexton sanatorium, is recovering as fast as could be expected.

## SHOWS WOLTER HELD LICENSE

State Produces Certificate From Internal Revenue in Liquor Trial Today.

## BILLS OF LADING EVIDENCE

Prosecution Allowed to Bring Out All Three Raids in Hearing on Second Affidavit.

The case against Eddie Wolter growing out of the second raid on his home and pool room in West Third street was heard this afternoon by a jury in police court. Wolter is charged with the illegal possession of intoxicating liquor and the barrel of bottled beer found at his home was offered in evidence. The raid on which this case was based occurred March 6 and was the second of the three.

The state placed Chief Rosenkrance and Police Yakey on the stand first. They told of the raid and of finding the beer at his home. The other two raids were mentioned in their testimony, and the fact that whiskey was found in the pockets of a hunting coat in the pool room on the occasion of the first raid was brought out.

The defendant, through his attorney, John Joyce, objected seriously to the introduction of a large number of bills of lading as evidence by the state. The defence maintained the bills of lading had nothing to do with the case being tried and that if the state wanted to introduce the bill of lading on the single barrel of beer already in evidence they had no objection. The bills of lading covered a period of several weeks and showed Wolter had shipped many empty barrels to the Pabst Brewing company and had also received shipments. Mayor Bebout allowed the bills to go in as evidence.

Another damaging piece of evidence was the receipt held by Wolter in payment for a government license to sell liquor. The license was issued in July, 1914 and covered a period of one year. The state had a certificate from Peter J. Krayer, internal revenue officer from this district, showing the license had been issued.

W. B. Garrigus, freight agent for the C. H. & D. railway, was placed on the stand and questioned regarding the shipments made by Wolter as shown in the bills of lading. The case was expected to take most of the afternoon. Wolter maintained the beer found in his house was for home use and his wife was at the trial intending to testify in his behalf.

The jury trying the case was composed of the following men: Joseph Carson, H. C. Flint, M. C. Dawson, Samuel Anderson, Leonard Clark, F. J. Ewbank, Norman Crum, J. T. Bussell, Hal Pike, D. C. Baell, G. P. Mauzy and J. W. Churchill.

## NEW LAW IS USED TO HELP FINANCE

County Treasurer Williams Receives Letter Today Calling for Advance Payment

## AS PROVIDED IN LATE ACT

Amount to be Taken From Rush County in Midst of Tax-Paying Time Near \$6,000

One of the new laws passed by the legislature is already being used to get money into the state treasury. The law is the one providing for advance payments of the county treasurer to the state board of finance. County Treasurer Williams received a letter this morning directing him to pay to the state all the money that the state has coming from Rush county on the state tax fund and the benevolent institutions fund by March 25.

The decision of the state board of finance to call for all the money due the state from these two funds was made at a meeting yesterday. The law has not been in operation a month yet, but the state needs the money and this payment must be made regardless of the regular monthly settlement made by the county treasurers to the state treasurer.

It can not be definitely determined just how much Rush county will send under this call as the amount can not be figured up until after the close of business on March 25, but Deputy Treasurer Frazee estimated the amount would be about \$6,000. The call for this money will take about all the money the state has coming from the county as these two funds are the largest due the state. In Rush county the levy on the state fund is fifty-seven cents on the hundred dollars and the state benevolent institution fund calls for ten cents on the hundred dollars. As this call comes in the middle of the spring tax-paying time the amount is larger than usual.

The letter from the governor is as follows: "In pursuance of the provisions of an act of the general assembly of the state of Indiana approved February 19, 1915, providing for advance payments by county treasurers upon call by the state board of finance, and declaring an emergency, you are hereby notified that at a meeting of the state board of finance held this day (March 15) it was deemed advisable by said board that advancements on the state tax and benevolent institutions funds should be called for to be paid on March 25, 1915.

"You will, therefore, on March 25, remit to the treasurer of state, all money then in your hands belonging to the state tax and benevolent institutions fund in response to this call. This call is entirely apart from, and in addition to, the usual monthly payments made your county."

Added interest was attached to the meeting of the Sixth District Educational Association here Friday evening and Saturday when it was announced today that Superintendent L. N. Hines of the Crawfordsville schools, author and promoter of the teachers pension law which was passed by the recent legislature, will address the meeting Saturday forenoon at 10:50 o'clock.

Being the originator of this legislation, Superintendent Hines, of course, is well acquainted with its provisions and benefits and will be able to discuss it intelligently. Teachers having questions concerning the law are invited to make their inquiries known. This is another feature of the meeting which is expected to make worth while the attendance of all the teachers in Rush county, as well as many from over the district.

Superintendent Scholl today gave out the following statement concerning the meeting addressed to "The Teachers of Rush County:

You are urged to attend the sessions of the Sixth District Educational Association which meets in Rushville, Friday night and Saturday forenoon and afternoon. The teachers of this county should show a welcome to the teachers of the other counties of this district by coming early and extending a welcome to all strangers.

## ROBERT GLORE DISAPPEARED

Youth Whose Case Was Before Juvenile Court Missing When Time For Hearing Comes.

## CASE GOES FORWARD ANYWAY

Intimated If Foster Parents Had Anything to do With it, They Might be Punished.

Robert Glore, the adopted son of Mr. and Mrs. Howard Glore, failed to put in an appearance in juvenile court this morning at which time it was proposed to make him a ward of the court and place him in a suitable home. All efforts to find the boy failed and there is considerable mystery to his disappearance. Sheriff Cavitt and Attendance Officer Miller hunted the city over for the boy but could not find him. He was not at school, and according to his foster parents, did not come home last evening to supper and did not come home to spend the night.

Last week the boy seemed anxious to get away from Mr. and Mrs. Glore as he believed the environments at their home were not the best. It will be remembered that the boy wrote a letter to Dr. Leonard W. Snyder, of Philadelphia, known as "the Boys' Minister," stating that his home life was very uncomfortable and that he would like to get away from those environments. The boy may not have known it at the time he wrote the letter, but his case was before the attention of the juvenile court and the probation officer six weeks prior to this time and was scheduled to come up in court just as soon as the officer could reach it.

The officers, in searching for Robert, learned that he was at a local picture show last night about ten o'clock and that while there he fell asleep. From the picture show all trace of the boy was lost and the police and other officers were unable to locate him today.

Judge Sparks went on with the hearing of the case and will wait until the boy shows up before making a finding. Witnesses were introduced to show the Glores were not fit persons to have the care of the boy. Judge Sparks intimated that if he found out that Mr. and Mrs. Glore were in any way responsible for the boy failing to come into court he would let them know they were dealing with a court. The juvenile court has almost unlimited powers and if Mr. and Mrs. Glore had anything to do with Robert's disappearance they can expect punishment at the hand of the court and the punishment will not be light if the court officials have their way, it is said.

It is reported that the boy's mother, Mrs. Rilla Morrison who lives near Delaware, Ind., has written attorneys here saying that she would like to have her son back, now that she is able to care for him.

## WILSON SILENT ON TOPIC TODAY

Refuses to Discuss England's Uncompromising Attitude Toward Foreign Trade.

## NO HASTY ACTION PLANNED

President Would Not Deny Strongest Note of Protest Would be Sent to Great Britain.

(By United Press.)

Washington, March 16.—President Wilson today refused to discuss any phase of Great Britain's uncompromising attitude toward foreign trade. He took the grounds that until he and his cabinet are in possession of all the facts they could not decide on their next step.

The president indicated there would be no hasty action but would not deny that the strongest note of protest would be made to Great Britain.

The president and his cabinet today planned America's next move. Two notes from the allies were under consideration. They were:

The British "order in council" decreeing the stoppage of all trade to and from Germany contraband or non-contraband even though destined for transit through neutral Italy, Holland or the Scandinavian countries.

England curt refusal to meet the suggestion in the "identical note" which Germany in part accepted asking a modification of the German submarine blockade in return for a removal of the embargo on food supplies for Germany's non-combatants.

An evidence of just what this new development means to American business men was Secretary Redfield's announcement that last week's foreign trade broke all records. The week trade balance in America's favor will reach \$40,000,000.

## ORDER RECEIVED TODAY

Text of British Blockade Transmitted to Washington.

(By United Press.)

Washington, March 16.—The state department today received from Ambassador Page in London the British "order in council" setting forth the allies program for enforcing their blockade against German ports. It was about 1,800 words and it was understood Monday's press version of it represented it correctly.

## DYNAMITERS TO PLEAD.

Los Angeles, March 16.—Matthew Schmidt and David Caplan, accused of participation in the Los Angeles Times dynamiting plot, were to be arraigned in the Superior Court today to plead in the charge of murder against them. Schmidt was arraigned in a New York and Chaplan on the coast, by Burns detectives, who had been tailing them since the McNamara plot first become known.

## KEEP HERDS OFF STREET.

Texas City, Texas, March 16.—Taking a stand for cleanliness and sanitary measures the women of this city outvoted the men in a special election on the question of permitting livestock to traverse the streets. The vote was 913 to 663 in favor of keeping the herds off the streets.

## TRIES TO INJECT POLITICS IN CASE

Congressman A. O. Stanley's Efforts in Election Corruption Hearing Squelched by Court.

## TWO TRIALS ARE FAILURES

Even Dead as Well as Vacant Lots Were Registered as Legal Voters, Witness Testifies.

(By United Press.)

Indianapolis, Ind., March 16.—An attempt of Congressman A. O. Stanley, who is Mayor Donn M. Roberts' chief counsel in the government Terre Haute election probe, to inject politics into the case today resulted in a sharp rebuke from Judge Anderson. Stanley tried to connect a government witness to the Republican party.

"I object to the question as this is not a political case in any sense of the word," said District Attorney Dailey. "What difference does it make whether a man is a Republican, Democrat or Progressive if he is corrupt?"

"I differ," said Stanley. "I think politics has something to do with it." "Politics has nothing to do with this case. Any attempt to inject politics into it will be stopped immediately," said Judge Anderson. Stanley started to speak but was interrupted by the court.

"I do not want to hear anything more of politics in this case, do you understand?" he said. When the government introduced the original restraining order of Superior Judge John E. Cox to prevent Roberts' men from interfering with election boards, there was another scene.

"The government will prove that Mayor Roberts told his henchmen not to pay any attention to Judge Cox's restraining order," said Dailey.

"Where is this taking place, in Indiana?" asked the court. "No in Terre Haute," said Dailey. "I never heard anything like it in my life," said Judge Anderson.

Even the dead as well as vacant lots were registered as legal voters and were voted at the recent Terre Haute election by the alleged conspirators, according to the testimony today of Silas M. Brewer, piano man of Terre Haute, who said he made a personal canvass of all

## Get What You Ask For

The national advertiser is always anxious to prevent substitution. He wants people to "get what they ask for."

But does the manufacturer always insist on getting "what he asks for" when he buys his advertising?

The daily newspaper is the one medium that does just this—gives the definite returns expected.

The local newspaper gives you what you pay for, and you don't have to pay for something you don't want.

The localized, definite, specific, pointed, direct appeal to a particular group of people, all of certain well-defined tastes and characteristics, is what the newspaper has to offer.

When you use the newspaper advertising you get exactly what you ask for.

# ALEX CONOVER SUCCEUMS

Former Resident of Rushville Dies  
Near Custer, S. D.

Word has been received here by Robert Conover, 1021 North Maple street, of the death of his brother, Alex Conover, age 37 years, who left here about nine years ago, at his home twelve miles from Custer, S. D. He underwent an operation for cancer of the bowels at a sanatorium at Hot Springs, S. D., but it was ineffectual in stopping the ravages of the disease. He was living with his parents, who left here about the time he did. George Conover, a brother, of Indianapolis, went to the funeral. Besides Robert and George, he is survived by his parents, one other brother, Lawrence, who lived at home, and two sisters, Mrs. Gertrude Todd of Custer, and Mrs. Will Robinson of Cripple Creek, Colo. Mrs. Robinson is seriously ill with typhoid fever.

# GRAIN DECLINES A LITTLE

Wheat Options Range About One Cent Today.

Chicago, March 16.—The price of grain declined somewhat today. May options on wheat closed at \$1.57 5/8, a loss of even one cent and July options revealed a loss of 7/8 of a cent, closing at \$1.53 5/8. September options suffered the same loss, closing at \$1.10. May corn was also off 7/8 of one cent, closing at 74 5/8 cents per bushel and July corn options closed at 76 7/8 cents, a loss of three-fourths of a cent. May oats closed at 55 1/2 cents, losing one-half cent, and July at 54 5/8, a loss of 5/8 of one cent.

## SALMON DAY ON COAST

(By United Press.)

San Francisco, Mar. 16.—This is Salmon Day on the Pacific Coast. In recognition of one of the great industries of the whole coast country banquets and luncheons are being held in all the larger Alaskan, British Columbia and Pacific coast cities. Dining cars and steamships running into and out of this city served a canned salmon menu. This is third annual observance of canned salmon day. The idea of the observance is to foster and encourage the salmon industry.

TRIES TO INJECT POLITICS IN CASE

Continued from Page 1.

voters precinct A of the Fourth ward.

"O. N. Hamilton of 707 North Eleventh street who bore the number 41 had been dead a year and even the house where he lived had been moved away when he 'voted' election day," said Brewer.

When some of the defendants in the government probe of the local political situation in Terre Haute failed to appear today, Federal Judge Anderson declared from the bench that he would forfeit the bonds of any of the 26 defendants if they failed to appear in court without having made an adequate excuse beforehand.

Joe Straus, whiskey salesman, a defendant, failed to respond when his name was called. Some of the other defendants said he was ill. Others were absent.

With the appearance of many Terre Haute gamblers in the witness rooms in the federal building today, it was thought the government is preparing to prove its charge that Terre Haute gamblers "chipped in" for a slug fund in return for police protection. Among the known gamblers were: Jimmy Shea, Bert Shea, Mike Sweeney, Walter Roach, Pop Burns, who ran a big keno game in the west end, and Charley Murphy.

A well founded rumor today was that the defense would debate largely on alibi witnesses.

ASKS DIVORCE FROM HER FIRST HUSBAND

Mrs. Harriet N. Waincott, Who Thought She Had Been Divorced, Now Requests Decree.

SHE WAS MRS. JAMES NADEN

Mrs. Harriet N. Waincott has filed suit for divorce from John R. Waincott. It will be recalled that Mrs. Waincott married James Naden here believing that her first husband had obtained a divorce. Later Naden had his marriage annulled on the grounds that Mrs. Waincott had not first obtained a divorce from Waincott. The annulment proceedings were brought after she had filed suit for divorce from Naden.

The papers were taken from the file at the clerk's office as soon as they were filed. They formerly lived in Kentucky. Mrs. Naden stated that her intentions were good when she married Naden as she fully believed that her first husband had obtained a divorce. She received notice of the filing of the divorce suit and the date set for the trial and presumed the divorce had been granted on her failure to appear. She says her first husband was married a second time before she married here. Mrs. Naden first filed suit for divorce from her first husband, she says, but he persuaded her to withdraw it.

CASEY LIQUOR CASE SET FOR THURSDAY

One in Which he Was Fined \$350 and Sentence to Jail For 6 Months to be Tried.

ANOTHER ONE IS PENDING

The case against Newton Casey, charged with the illegal possession of intoxicating liquor, will be tried Thursday in the circuit court, according to present plans. This is the case against him that was taken to the circuit court on an appeal from Mayor Bebout's court. In the mayor's court Casey was found guilty by the jury and fined \$350 and given six months in jail. The case has been set down for trial by Judge Sparks. The other case pending in the circuit court against Casey is set for trial next Monday. This is the case that will prove serious for Casey if he is found guilty.

Judge Sparks this forenoon found for the plaintiff in the partition suit of Oliver Malecom against Edith G. Gosnell, et al., and ordered the land sold. Donald L. Smith was appointed the commissioner to make the sale and gave bond in the sum of \$16,000.

### School Problems

There has been some criticism of the teachers pension law, but it seems certain that unbiased minds will see the worth of it once they give it some study. If there is any class of people in semi-public life that needs a pension, it is the school teacher. And again, it is not likely to work any hardship on the state because the pension system is not compulsory and its benefits go only to those who take advantage of the provisions of the law.

One hears some criticism of modern school methods but many parents criticize without having made any personal observance of the schools. The general public does not seem to comprehend the strain of school work. The parent can barely maintain stable government through the vacation, yet it is felt by them that the teacher can easily subjugate the forty or fifty children that are unloaded on him or her. The parent does not realize how much diplomacy and enthusiasm it requires to organize these little anarchists into a working body. The average compensation for the teacher is generally agreed to be too small.

The average teacher has to handle too many children. In a crowded room, discipline alone is a big proposition. Then in a five hour session there is only about seven minutes per pupil for instruction. The public school child gets his education largely by hearing the others recite. But the others may not ask the questions that bother your boy.

Better work is done in some private schools, but not because people with more money can buy brains for their children. A petted child is a little loafer. The private school teacher has fewer children to look after, consequently she can lead them as individuals, does not have to drive them as a herd.

Tax payers everywhere say the schools have reached the limit of expense. More teachers could not be afforded. Yet somehow many towns afford buff brick and stone buildings, where once wood was pointed at with pride as an ornament.

Mexico is shy on food—ditto brains.

### LIFE INSURANCE COMPANIES

They Are Closely Observing Public Health Conditions.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Birmingham, N. Y., who prepare Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases. Swamp-Root is purely an herbal compound and Dr. Kilmer & Co., advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Birmingham, N. Y., for a sample bottle. When writing be sure and mention The Daily Republican.

What Our Neighbors  
Are Talking About

### Backward Progress.

(Muncie Press.)

At a time when taxation in Indiana and throughout the country is rapidly approaching the point of confiscation and when the high cost of living reflects the burdens heaped upon productive industry by the ever increasing demands of the taxgatherer, the Indiana legislature, in the name of progress, has presented the people of the state with a compulsory general primary law which in Delaware county, for instance will saddle upon the people an additional expense equivalent to that now incurred in holding a general election.—this for no real public purpose, but to finance the activities of political parties in creating their organizations and nominating candidates for office.

Indiana might well have awaited further experimentation with the general direct primary in some other states before adopting the expensive innovation. Demonstrably its effect has been in neighboring states to increase political corruption, render easier the manipulation of politics by machine workers to prevent any but professional politicians from offering themselves as applicants for places in party organizations or on party tickets and to lower the level of public service. Party responsibility party desire to put the best foot forward at an election which is so large a factor in the representative system of making nominations and often a salutary one, is succeeded by chaos, so such an extent that at the last primaries in Chicago the principal papers of the city declined to take the responsibility for making any recommendations. The Chicago experience proves, too, that in such a primary only a minority participates, and usually a small minority of this minority in each party nominates. This indifference demonstrates that the people are not clamoring for an opportunity to go through more than one process of direct election in each campaign, and the results of that indifference and the chaos it creates tend to discredit rather than to heighten the standards of popular government.

In many Indiana counties where direct primaries have been in effect heretofore, they have been abandoned in some cases because of the corrupt conditions they have created. In Indianapolis and Terre Haute the

## Acts of Recent Legislature Are Explained by Expert, John A. Lapp

(This is the second of a series of articles prepared for the United Press by John A. Lapp, director of the Bureau of Legislative Information, explaining the new state laws. Editor.)

The most talked of piece of legislation enacted at the session of the General Assembly just closed was the Jones Primary election bill. It is of great interest to the people of the state because it means almost a complete change in the system of nominating candidates for public office. Hereafter, the voters of each party vote directly for candidates for the nomination for all offices except state officers. In addition, the voters vote directly for candidates for president, vice-president, governor and U. S. Senator in an advisory way.

Concretely, the law will work this way. On the first Tuesday after the first Monday in March, 1915. The Republican, Democratic and Progressive parties must make their nominations by direct vote at an election which is held under the same conditions and with like officials and regulations as now govern general elections. At that election the voters will vote for candidates for members of congress, state and prosecuting attorneys, and for governor, United States senator and President and Vice-President. The person receiving the greatest number of votes will be declared the nominee of his party. In the case of the governor, United States senator president and vice-president, candidates must receive a majority of the votes cast in order to be declared the nominee. Otherwise, the matter is taken to the state convention for final selection.

In voting for candidates, each elector may vote for his first choice and for his second choice, and if no candidate has received a majority of the first choice votes, the lowest candidate is dropped and the second choice votes of his supporters are distributed among the others, then if no one receives a majority, the next lowest candidate is dropped and his second choice votes are distributed until one of the candidates has majority of all votes cast. With this method it is evident that the vote for governor, United States senator and president will inevitably result in a majority for one candidate. Hence, the idea that the vote for these officers is simply advisory is erroneous.

The members of the party committees are chosen at the same election and serve for the next two years. This is a complete innovation, for

corruption of the primaries has attained a national reputation, and not entirely, as is pretended, because of the deficiencies of the system, which is not essentially different from that provided by the new primary law. The new compulsory primary law provides a maze of technicalities, filing of petitions, paying of assessments and the like, which will promote professionalism in politics to an extent hitherto undreamed of in this state.

An instance of what the adoption of this system means in the exclusion from politics of the man who has no wad of his own and is unwilling to run for office as the representative of some special interest, is found in the provision relative to the preferential expression on the presidency. It provides that for a fee of \$750 a presidential candidate may have his name placed on the Indiana ballot. At this rate it would cost a presidential candidate \$35,000 to even qualify for consideration at the hands of his party nationally by getting his name on the ballot in each state. How fortunate that Abraham Lincoln lived before the days of "progress." In this primary law the salary of each office is made the basis of one per cent assessments to be paid the state in partial indemnity for providing the primary; evidently the primary proponents consider the emoluments of office the sole object of political ambition. Certainly the law they have enacted will represent considerable progress toward the further commercialization of politics.

Evils there were in the convention system. It is the misfortune of existing institutions that their evils are tangible, while the evils that lurk in

the law has never attempted to regulate very extensively the organization and conduct of the party committees. At the same election, also, delegates to the state convention are elected, who are to meet for the nomination of candidates for state officers, and for the framing of the party platform. The convention must be held in the city of Indianapolis within one hundred and fifty days after the March primary.

To become a candidate for office the candidate must file a declaration of candidacy thirty days before the primary and pay a fee, which amounts in most cases to one percent, of the salary where the salary is more than \$100.00. Where the compensation is less than \$100, the fee for filing is \$1.00, but candidates for county council-men, township advisory board and precinct committeemen are not required to pay any fee. Candidates for president, vice-president, governor and United States senator, are required to pay a fee of \$100.

The law is safeguarded by the usual penalties against corrupt practices, and no person shall be allowed to vote unless he was registered at the last general election, or unless he makes affidavit that he is a qualified voter.

Candidates of each party appear on separate ballots and each person must vote the ballot of his party. Any person attempting to vote the ballot of any other party than the one of which he affiliates may be challenged and must then swear that he affiliates with the party for which he voted, that he voted for a majority of the nominees of the party at the last election and that he intends to support the regular nominees of that party at the coming election. Any person who will become twenty-one years of age before the November election may vote in the primary.

When candidates for city offices are to be named, the primary election will be held on the first Tuesday after the first Monday in March preceding, and all the requirements of the act apply as in case of a general primary.

This law is in accord with the laws of more than forty states. Practically all officers in the whole country are now named by direct primary. Eighty-four of 96 senators are now named by direct primary; 40 of the 48 governors; 410 of the 425 congressmen; practically all county and city officials and legislative candidates. One advanced feature of this law which few states possess is the second choice, which enables the voter to designate his first and second choice.

Committees Collecting For Baseball  
Stock Meet With Success But  
Will Keep After Money.

**INCORPORATE NEXT THING**

Richmond Club Will Decide Wednesday Night on Question of  
Entering Sunday League.

The committees at work collecting the money for the baseball stock had a profitable first day getting almost \$500. A meeting was held last night and the committees reported on the day's work. It was not expected that they would be able to work today but on Wednesday a whirlwind canvass will be made and it is hoped to have enough of the money collected by Thursday to go ahead with the incorporation.

The subscribers of stock who have not paid are asked to remember that the office of the treasurer, H. G. Hackman is always open and it is not necessary to see the committees. Several new subscribers were secured yesterday while the committees were at work. With half of the money practically in, the proposition is sure to go through. It takes money to operate a ball club and the more stockholders the better.

The talk of the Sunday league will not die down and the fans here are sure strong for the league. The Richmond club has not yet decided whether their team will be entered or not. The following from the Richmond Item will be of interest here:

Richmond baseball club meeting scheduled for tonight has been postponed until Wednesday night. The meeting was called for the purpose of discussing the proposed Sunday league and for taking action on this proposition, definitely deciding whether Richmond wants to enter the league or to stay out as an independent organization. The directors of the Richmond club are not settled in their own minds what they wish to do and it is impossible to predict what action may be taken. At least two of the directors of the

club are known to favor the league proposition if Richmond can get what it wants.

Richmond if it goes into the league will demand the secretary and treasurer of the league and will make some other demands. Richmond is in a position to make these demands for it is the keystone of the entire proposition. If Richmond stays out it is a cinch that Rushville and Connersville will remain out. Newcastle probably would not consider the proposition either if Richmond were out. Billy Vogel of Indianapolis who is one of the men eager to see the league promoted for the benefit of his ball club would rather see Muncie in than Richmond. Therefore, if Richmond does enter the league a demand will be made that Cambridge City be placed in the league and that Vogel and Indianapolis be left out.

**POLICEMAN RECOVERING.**

The Richmond newspapers say Patrolman John Cully, Richmond policeman who was shot last Monday night by Nathan Hilling, who killed his wife and then himself, is improving slowly. Hilling and his wife formerly lived here. Testimony of relatives of Hilling as to the motive for his crime substantiates the newspaper reports that he was jealous of her.

**Falling Hair Or  
Itching Scalp**

Now that Parisian Sage—an expensive preparation that supplies every hair and scalp need—can be had from Johnson's Drug Store, it is certainly needless to have thin, brittle, matted stringy or faded hair. No matter how unsightly your hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Every trace of dandruff is removed with one application, the hair roots are nourished and stimulated to grow new hair, itching scalp and falling hair cease.

Parisian Sage is certainly one of the most invigorating tonics, and will surely make your hair soft, abundant and radiant with life and beauty.

**Coast Look Good, McGill Says**

**He Will Have Real Team**

BY TIM SULLIVAN

(Written for United Press.)

St. Paul, Minn., Mar. 16.—With the baseball season, approaching, the St. Paul club of the American association is as still as a graveyard. Narry a whisper is heard about the prospects of the club and there seems very little interest in whether there is a club. Mike Kelly, manager of the club, has organized it and promises to bring up the financial condition.

Over in Minneapolis there will be much young blood in the team. The veterans who won four pennants and made a strong bid, but finally slipped in 1914, are about all gone. Lee Tammchill has been released to Los Angeles, and Joe Lake has been released outright. These marked the last of the old timers.

Pitchers are wanted by Kansas City. Armour has threatened to take some of the young blood under his wing on the training jaunt. Brief and Roth have been lost. Since last fall, "Lefty" George and Ralph Works have been added to the staff. Jack Lelivelt of Cleveland has also been added. However Reagan is the only twirler on the staff upon whom the fans bank. Armour has two pitchers coming from the White Sox on the Roth deal, however.

Out in San Diego, Cal., the Indianapolis Indians are making what is being looked forward to with hope. Pres. McGill says that facing the strong competitors of the Indianapolis Reds, that he will be put up against a proposition of putting up a flashy team, or getting behind some \$40,000. Reilly, Crandall, Brookie, Metz, Blackburn, Willis, Merz, Schardt and Bucke are about the only ones that look absolutely sure to reappear from last year's team. Bucher of Denver probably will be in uniform. He plays the gardens.

With Shortstop Jack Knight hav-

ing supplanted Jimmey Sheekard as manager, and showing lots of managerial pepper, the Cleveland fans believe that the Cleveland bunch will go at a faster clip than ever before. Kirk Knight, Pezoid, and Bassler will be in the line. James, Kahler, Haggerty, Dillinger, Osborne, Brown, Brenton, Hoffer and Carter will be tried on the mound.

Securing a good baseman to replace McLarry is worrying the management of the Louisville club. Burns, Burch, Buemiller and Inger-ton have been given their liberty. Derrick, Stansburg, Platte and Osborne came back.

Little change will be made in the twice pennanted team from Milwaukee, where the signs "English spoken here" adorn the front of shop windows although there may be a slight shift in the outfield, caused by the vacancy of Welsh, Slapnicka, Hove-Daugherty, and Miller are promised for the mound, while Hauges Slight and Mallory will make the other end of the Brewers batteries.

There's a dubious shade about the Senators, over in Columbus. Many stars have twinkled out. Hinchman and Spooks Gerber go to Pittsburgh Syd Smith will be given his chance with the Pirates. Even Bailey has a bum leg and the fans are not betting on him, the last hope.

## FEW FOLKS HAVE GRAY HAIR NOW

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

THAT PERTAINING TO OATH

Pointed Out it Would Prevent Returning Progressives Helping Name G. O. P. Ticket.

Many men here who have been studying the new state-wide, direct primary law are a little prone to believe that some provisions of it are unconstitutional and that a test of them in the courts will prove it.

They contend that the clause which provides that every voter who helps nominate any given party ticket shall make oath that he supported half of that ticket at the last election is not right in that the ballot is supposed to be secret. If a voter has to make public property what ticket he voted in order to take advantage of the primary law, the ballot no longer secret, they hold.

Some Republicans have an idea that the senate fixed up the compromise in order to eliminate to some extent the return of many Progressives to the Republican party by making it impossible for them to help nominate the Republican ticket, and to make it hard for the so-called Democratic "Forward-lookers" who many regular Democrats assert in "D. R. E. L. E. G. A. E."

It is pointed out that the senate was opposed to the primary plan because it refused to pass the Rinear bill, a duplicate of the Jones bill which was introduced in the house and which did not contain the provision calling for all those who participated in the primary to make oath that they supported half the ticket of the party, whose candidates they seek to help nominate in the primary.

It is said by some men here who have been reading up on the primary question that no other primary law in the United States contains such a provision. Because the senate apparently was opposed to primary legislation and had to be coaxed into a compromise, it is believed by many that this "joker" was put in to nullify the law.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush out the body's uric waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## TARGET PLANS KEPT SECRET

Uncle Sam Playing Foxy and Does Away With Publicity Regarding Practice of Gunners

PRESENT WAR IS ONE CAUSE

Records Are Not Now Paraded Before Other Nations With a Chance of Comparison

(By United Press.)

Washington, March 16.—Uncle Sammy's playing foxy. At least, he's that way when it comes to letting the world know just how good his bright young men are on their navy target practices. And there's a reason.

It used to be the custom for the United States navy to parade its target records. Then when the aforesaid Uncle Sammy had done with this advertising, the other nations stepped proudly forth, and let the United States know where they, too, stood, on his land misses.

But war changed a lot of things—and among others the matter of advertising just how fast and how far and how well American gunners can shoot. Hence, today records of the past and present, and comparison with other nations, is withheld for the most part.

Hence, when a few weeks since, gentle reader, you read that William Ruf, gunpointer aboard the Texas, had smashed a world's record to smithereens by making eight hits with a fourteen inch gun, firing at a moving target twelve miles away, you didn't have the exact facts. Neither did you have exact information when you saw in the movies another young man aboard the Georgia portrayed as Uncle Sammy's "champeen."

Ruf did break into the limelight, but this marks—whatever they may be—were made with a small gun.

And when the crew of the San Diego made 100 percent of hits on a range near the Colorado Islands, with an eight inch gun, firing at a rate of three and a half shots a minute, that was not all, either.

On the other hand, the real dyed-in-the-wool gunners, for the past year, when it comes to hitting the bulls eye with a 14-inch cannon, is L. V. Lindsey of the Texas, an ordinary seaman.

Manipulating one of these 14-inch pets and ringing the bell frequently is a real feat, so Lindsey gets special recognition for his work.

The leading 12-inch gunners are W. F. Meyers, seaman, on the Arkansas, and E. L. Talley, coxswain of the Georgia.

Back in the days when Uncle Sam used to do a bit of advertising about his gunners ability—say around 1896—a shot every three minutes from the turret guns—11, 12, 14 inch—was considered satisfactory, while one a minute from a six inch gun was also looked upon as a paper figure.

And if the hits averaged three and a half percent, as in the battle of Santiago, the navy felt well content. The hitting in that battle, however,

was chiefly with small guns at a range less than two miles.

But in these days of "Big Berthas" and the like, shooting and hitting in the U. S. navy is far higher than it used to be.

Now two shots a minute from the big turret guns and about eight from the smaller guns is considered a fair record. The hits, however, run higher.

The big fourteen inch guns which can create a lot of wreckage up to 14 miles, score about 25 percent on hits—at least that was the record when last figures were made public in 1911 in connection with firing at the old San Marcos target in Chesapeake Bay.

Incidentally, Secretary of Navy Daniels had this to say on the general subject of target practice, a few days since:

"Some people complain that our navy hasn't had enough target practice recently. But I want to say that the practice we had in going to Vera Cruz was more valuable than the target training could be. We picked up and got down there in double quick time—and everything ran like clockwork. That training was invaluable."

## Rheumatic Victims

Johnson's Drug Store No-Cure No-Pay Offer Attracts Many Sufferers to Test Rheuma.

If Rheuma, the wonderful prescription for rheumatism sold by Johnson's Drug Store and all druggists, does not cure any purchaser, the druggist will return your money without any red tape.

Rheumatism is a dangerous disease; because of its shifting nature it often strikes the heart and proves fatal. Any one with even a taint of rheumatism ought to drive it out as soon as possible.

Rheumatism is caused by sluggish worn-out or overworked kidneys, which become clogged and fail to eliminate the impurities from the system.

Rheuma acts promptly and directly upon the kidneys; it cleanses them; it absolutely renovates and leaves them in perfect condition, able to do the work nature intended they should do. 50 cents a bottle. (Advertisement.)

# SPECULATE ON BELL'S POWER

Defeat of His Pet Measures in Legislature Believed to Show he Has Lost Out

## ALL OF HIS BILLS KILLED

Finance Board Bill Created Great Excitement and Change of Venue Bill Was Next

Indianapolis, March 16.—There was some speculation here today as to just what strength Mayor Joseph E. Bell of this city has with the Indiana Democratic party while friends said his position was unchanged—that he was still a leader whose counsel is valued—there were others who pointed to the record of the recent legislature showing that every bill in which Bell forces interested themselves was defeated.

Here is the record of defeats for bills either fathered by Mayor Bell or fostered by his organization:

Change of venue bill, known as "felon's relief bill," passed the senate but amended and defeated in the house.

Bell finance board bill passed senate but defeated in house.

Bell park board bill, killed in the senate.

Sewage disposal bill, defeated in the house.

Bill to replace press services under the public service commission passed the senate and defeated in the house.

Bill creating second police court in Indianapolis, died in the senate.

Great excitement was created over the finance board bill, which would have given the mayor power to appoint the board and discharge the members. The board would have taken over many of the principal powers of the city council. Bell and the city council have been at loggerheads and Bell declared they will fully thwarted every move he desired to make.

The venue bill was next in importance. It was designed to allow changes of venue from Judge Collins of criminal court and finally was amended to apply to election cases. Since this bill failed there has been numerous rumors that Bell would be indicted by the Marion county grand jury.

## An Overburdened Wife.

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with backache, pains in side, headaches and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

# MOST POWERFUL SHIP LAUNCHED

U. S. Dreadnaught Pennsylvania, Which Slipped From Ways Today, Has That Distinction

## CEREMONIES CONDUCTED

Uncle Sam's 38th Battleship is Christened by Miss Elizabeth Kolb of Germantown

(By United Press.)

Newport News, Va., Mar. 16.—Sponsored by Miss Elizabeth Kolb of Germantown, Pa., the giant U. S. dreadnaught Pennsylvania slipped from the ways today and took her place as the most powerful fighting machine yet launched.

In the presence of Secretary of Navy Daniels, and other officials, solemn ceremonies were conducted. While sailors and marines stood at attention, and as big salute guns boomed forth, Miss Kolb dashed a bottle of champagne over the bow and christened Uncle Sam's 38th battleship the Pennsylvania.

As the enormous fighting machine plunged into the ocean, she presented a strange contrast to the Delaware launched in the same yards—the Newport News Shipbuilding company's yards in 1909.

Where the Delaware had a displacement of 20,000 tons, the giant Pennsylvania had 31,400. Mammoth black guns, bristling from her sides were 14 inch type—twelve in number—against the Delaware's ten 12-inch guns.

In addition to her larger guns, the Pennsylvania carries four submerged torpedo tubes through which she can shoot underwater at an enemy; and 22 5-inch 51 caliber rapid fire guns, four three pounder saluting guns, two one pounder, fur boats, two three inch field pieces and two 30 caliber machine guns.

She will carry 65 officers, a crew of 863, and a marine detachment of 74.

Thirteen million dollars was the cost to Uncle Sam of this latest addition to the navy and she is far and away better than anything the navy has ever asked before. From top to bottom her equipment is strictly modern. Oil burning Curtiss turbines instead of coal engines will propel her, and she is fitted to carry 694, 839 gallons of fuel.

Other figures showing what a giant she is follows: length over all 880 feet breadth, 97½ feet; speed 21 knots. The keel was laid down in February, 1913.

The Pennsylvania, in some respects will be the most powerful vessel afloat. While not as speedy as the greatest British warship, the "Queen Elizabeth," which hurled its projectiles with deadly effect in the Dardanelles bombardment the Pennsylvania's weight of broadside is 3,000 pounds heavier than the British rival, and her projective armor is three inches thicker.

A comparison of the two ships, each illustrating different ideas in naval construction follows:

Pennsylvania—Displacement, 31,400 tons; big guns—12 fourteen inch; armor amidships 16 inches; speed 21 knots. weight of broadside, 16,292 pounds.

Queen Elizabeth—Displacement 27,500 tons; big guns, 8 15 inch; armor amidships, 13 inches; speed, 24 knots; weight of broadside, 13,400 pounds.

Dreadnaught No. 39 has not been christened, is a sister ship of the Pennsylvania. American naval experts declare that while ships of the Queen Elizabeth type might outrange the Pennsylvania the latter's protective armor is so heavy that the projective would not do any appreciable damage.

# A SURE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp—At Once

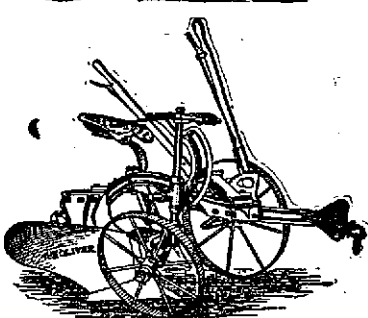

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arbor from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

# \$3000.00 FIRE PREVENTED

The House the Red Jacket Saved

Read This Letter: "Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on "fire protection" that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect.

Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

# We Have Our Spring Buggies In!

and they are ready for your inspection and we extend you an invitation to call and look them over this week as it will be to your interest to make your selection between now and the closing day of our Opening. We will explain why when you come in. We have the finest buggies ever placed on a sample floor and we want you to look them over. If you need a Storm Buggy this is the correct place to get what you want. We are not selling them at a reduction of \$25.00, however, but we are selling them just the same as we have all season at \$100.00. We have always said that our price was just as low at any time as the cut prices of our competitors, and we are always ready to do as we advertise. When a merchant advertises he has made a cut of \$25.00 on a buggy use a little common sense in forming an opinion about this like the fellow that was in a state of coma, and his friends thought he was dead, but before time to bury him he showed signs of life. When he rallied enough to talk his friends asked him how it seemed to be dead. "Dead," he exclaimed, "I knew all the time what was going on and I knew I wasn't dead, too, because my feet were cold and I was hungry and I knew that if I was in heaven I wouldn't be hungry and if I was in the other place my feet wouldn't be cold. Now if you will study out 99 per cent of the cut price argument you will see just about as much to them as there is in this little story. In other words, somebody has to be the goat, and the man that takes \$25.00 off of a buggy during a sale must have a lot on when he is selling regular. Buy your buggies where the price is always the same and as low as any cut price sale ever advertised in Rush County. Let the other fellow be the goat this time.

## TWO CHARGED WITH BRIBERY

Mayor R. H. Bunch and Deputy  
Prosecutor Williams of Muncie  
Indicted by Grand Jury.

DECLARED MEN GOT \$1,700

Chief Executive Accused of Having  
Accepted 20 Per Cent From  
Agents of Slot Machines.

Muncie, Ind., March 16.—Following a grand jury investigation of several days Mayor Rollin H. Bunch and Deputy Prosecutor Gene Williams were arrested last evening on grand jury indictments, which charge them with accepting bribes. John Day, justice of the peace, was arrested on an indictment charging him with having failed to docket cases in which fines were levied by him in his court.

Mayor Bunch is charged in the true will with having accepted \$1,600 from Lloyd Yount of Portland, Ind., an agent for a slot machine concern, and Deputy Prosecutor Williams is charged with having accepted \$100 from Yount. All three men were released on bond.

The first results of the grand jury investigation under the direction of Special Prosecutor W. A. Thompson came in the three separate indictments against Mayor Bunch, Deputy Prosecuting Attorney Williams and Justice of the Peace Day. The offense charged to Day is a misdemeanor. Mayor Bunch and Deputy Prosecutor Williams each gave bond in the sum of \$2,000 and Justice Day put up a cash bond of \$100.

The indictment against Mayor Bunch is the most explicit of the three and is in three counts. The first count charges that on Jan. 15, 1914, Mayor Bunch accepted a bribe of \$100 from Yount to allow the latter to lease and sell his slot machines in Muncie. The second count charges that on Jan. 15, 1914, Yount and Mayor Bunch entered into an agreement regarding the operation of slot machines in Muncie, whereby Mayor Bunch was to receive 20 per cent of the net profits accruing from the use of the machines, and it is charged that at divers times thereafter Yount paid to Mayor Bunch his share of the profits, amounting in all to \$1,000.

In the third count it is charged that Yount paid Mayor Bunch \$500 as an "inducement" to prevent the prosecution of those persons operating the slot machines leased or sold to them by Yount.

The one indictment against Deputy Prosecutor Williams is similar to the first two counts against Mayor Bunch. It is charged that Williams accepted \$100 from Yount as a bribe for the purpose of influencing the action of Bunch in permitting the use of the slot machines in Muncie and in not prosecuting the proprietor of the stores in which the machines were placed.

Yount came to Muncie shortly after Mayor Bunch took office and almost immediately after his arrival in the city a number of slot machines appeared in the cigar stores and other places. They operated without molestation, it is said, until Yount got in trouble at Richmond, Ind., where he was accused of attempting to bribe the mayor of that city to permit the use of slot machines there.

The city authorities then ordered the machines out of all the stores here. A short time later, however, slot machines of another make made their appearance in a number of the stores and it is said that Yount then threatened to expose the whole thing unless he was permitted to install his machine again. Yount made five trips to the grand jury room.

## REVERSE FOR HARRY THAW

Motion to be Returned to New  
Hampshire is Denied.

(By United Press.)  
New York, March 16.—Supreme Court Justice Page today denied the motion of Harry K. Thaw, slayer of Stanford White, to be returned to the state of New Hampshire following his acquittal Saturday on a charge of conspiring to escape from Matteawan. It was a serious reverse for Thaw.

## REPORT RATIFIED BY THE MEMBERS

Chamber of Commerce Accepts  
Recommendations of Committee  
For New Directors

MEETING TO ORGANIZE SOON

A meeting of the members of the Chamber of Commerce was held last night at the court house assembly room to take action on the report of the nominating committee appointed at the regular annual meeting to nominate eleven members to become members of the board of directors. The report of the nominating committee was adopted and the following members were declared elected for terms of two years:

Joseph Sterns, H. G. Hackman, Ben A. Cox, E. J. Knecht, S. L. Traubne, F. E. Walcott, W. M. Bliss, P. H. McConnell, H. S. Havens, J. S. Titsworth and W. O. Fendner.

A meeting of the board of directors will be called very soon for organization and to discuss reduction of dues. This question was considered last night and it was thought the proper way to proceed would be for the directors to recommend the dues be changed and submit the recommendation to the members for their ratification or rejection.

### RAILROAD REORGANIZE

(By United Press.)  
St. Louis, Mo., March 16.—The Missouri Pacific Railway was to be reorganized today at the annual stockholders meeting here. New directors were to be named and it was believed that Gould family was to be stripped of its holdings, which now amount to only 241 shares.

## LEW REMEMBERS IT WELL.

Just sixty-four years ago today there was a great flood in Rushville, take it from Lew Cline, because Lew had just entered this pestiferous world on that day and he "remembers" the incident distinctly. Not wishing to expose Mr. Cline's age at all, but he was born just sixty-four years ago today. He says that ever since that memorable day he has heard of that flood as the worst ever visited on Rushville.

## Notice of Final Settlement of Estate.

Notice is hereby given to the creditors, heirs and legatees of Francis M. Alexander, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 6th day of April, 1915, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

Witness, the Clerk of said court, this 15th day of March, 1915.

## THOUGHT TRAMP STARTED THE FIRE

Large Barn on John D. Stewart's  
Farm in Richland Township  
Burns Down

HAD INSURANCE OF \$1,250

A large barn of the John D. Stewart farm in Richland township was destroyed by fire last night about eight o'clock. The origin is unknown but the supposition is that a tramp sleeping in the mow set it on fire. The blaze when first discovered was confined to the hay mow and the fifteen tons of hay burned with a flash. Mr. Stewart had no fire protection and the work was directed towards saving the surrounding buildings.

There was no live stock in the barn, with the exception of a few head of hogs. The horses had all been turned out for the night. It is understood that Mr. Stewart had \$1,250 insurance on the barn and contents, but this will not cover the loss.

The Presbyterian ladies will serve a dairy lunch in the church basement Saturday, March 20th, beginning at eleven o'clock. Public invited.

## FIVE FIGHT BILLS IN LEGISLATURE

Illinois Solons Consider Many Pro-  
positions for Legalizing Glove  
Game in That State.

QUESTION OF DECISIONS

BY JAMES O'DEA  
(Written for United Press.)

Chicago, Mar. 16.—Every legislator has a fight bill all his own, might be an appropriate parody on the popular "Every Little Movement" Melody down in Springfield. There were five bills known to be ready for the legislative grist long before the Illinois solons in the lower house finally got together after a record breaking deadlock, elected a speaker and organized. All provided for legalizing the glove game in Illinois. All provided for a commission. Some were almost similar to the New York Law. Others went boxing in Illinois under conditions similar to the method of holding fights in Wisconsin. All call for a 10-round limit. When the sessions get going good, the five bills mentioned, are expected to be augmented by as many more.

The one point on which there is wide difference of opinion among the dozen or more legislators who are known openly to favor a boxing law in Illinois is the matter of whether there shall be decisions. Fight promoters and others interested in legalizing boxing in the state are expected to get together within the next few weeks and concentrate on one bill. Governor Dunne has steadfastly refused to state his position in the matter. It is believed however that if the house and senate put the bill through, the Illinois chief executive will sign it.

Mrs. Robert Gardner, who underwent an operation last week at the Sexton sanatorium, is recovering as fast as could be expected.

## DO YOU KNOW HOW TO SELECT A RUG?

You would never think of paying for solid silver without looking for the stamp "Sterling." When you buy gold you look for the Karet stamp. Why not then, when you buy a rug, look for the Hall mark of Rug Excellence? There is just one line of rugs made in this country today that is the best and that is like gold and silver—standardized, and every rug in the line has woven into its back the Quality Guarantee.

LOOK FOR THIS MARK

LOOK FOR THIS MARK

No matter where you buy a Whittall Rug you pay a standard price for it—it is the same in New York, Cincinnati, Indianapolis, Chicago, New Orleans and San Francisco. Isn't it worth something to know that in return for the money you invest in your rugs you receive a Dollar's worth of standard quality? Besides, Whittall Rugs are the most beautiful and artistic on the market—they are made of Oriental Wools in Oriental designs and colorings and so wonderful in their texture they are worthy of intimate association with their Oriental Cousins.
